Post publication note - this was emailed to Zero Retries Subscribers on 2023-07-22 when I accidentally clicked the Publish button instead of the “Return to Drafts” button. I’m retaining this for posterity because it was actually transmitted as an issue of Zero Retries.

I joked in Zero Retries Bulletin - Apologies for the Template:

”But, on the bright side, now you have the secret sauce to Zero Retries - just fill in the blanks!

Zero Retries is an independent newsletter promoting technological innovation in Amateur Radio, and Amateur Radio as (literally) a license to experiment with and learn about radio technology. Now in its third year of publication.

Closing the Channel

In its mission to highlight technological innovation in Amateur Radio, promote Amateur Radio to techies as a literal license to experiment with radio technology, and make Amateur Radio more relevant to society in the 2020s and beyond, Zero Retries is published via email and web, and is available to everyone at no cost. Zero Retries is proud *not to participate* in the Amateur Radio Publishing Industrial Complex, which hides Amateur Radio content behind paywalls.
